Importance: High

Respected Judge Moran and other concerned parties:

Due to poor health I am not in position to file exceptions or replies for uncertain period. At present, I am under medication which causes drowsiness, weakness and concentration problems. In such situation, please advice me of any extension that I can get. Due to the nature of serious health problem, I am not in position to propose any future dates and wish you allow me time till I recover or doctor offer me break.

For your information, for past few months, I am on following medication:

Wellburtin SR 150
Prozac 40 mg
Clonazepam 1 1/2 mg

These medications are primarily given to me for sever depression, panic attract and anxiety. (I am taking these for past several months)

Please advice me of any alternative that you may have in such situation because mentally I am not functioning properly.

Sincerely,

Rajesh B. Shah
